

AUTOMOTIVE MASTER!

VESSEL

PRODUCT OF JAPAN

High Powered Twin Hammers Produce Extra Torque Thrust.

Ideal for automotive and tire change works. **GT-1700BX**

NEW

One Unit Combined Control
for Air Regulator and Reverse.

12.7mm(1/2") SQ. DRIVE
WITH EXTRA 19mm SQ POWER WRENCHING.

WORKING TORQUE

FASTENING **480N·m**

REVERSING **540N·m**

Tested at 5 seconds, 90 psi, 3/8" Hose (Inner Dia.)

Smooth high torque reach in ideal balance of power wrenching.
Resin Ergonomic Grip secures low vibration value and free from
"cold-grip" and just fit in your palm!

EDP No.	MODEL	Capacity Bolt Dia. (mm)	Square Drive (mm)	Free Load (rpm)	Max Torque (N·m) <small>*30 seconds, 90 psi, 3/8" Hose</small>	Air consumption (m ³ /min)	Air hose Inner Dia. (mm)	Air hose coupling (Rc)	Overall length (mm)	Weight (kg)
331284	GT-1700BX	16	12.7 (1/2")	Forward 7,000 Reverse 8,000	Forward 800 Reverse 950	0.9	6.35	1/4	192	2.2

※Working Air Pressure...0.6MPa ※Accessories...VESSEL Air Coupling (BPB-2) 1pc

※Overall Length, Weight...Accessories not included.

Warning

- For your safety use, read operation manual thoroughly in utmost care or never start the operation nor replacement of point attached tools.
- Use proper working air pressure 0.6MPa at the tool. Avoid the tool use in higher air pressure. This over pressured operation may ruin the mechanism and even dangerous to yourself.
